## CYC News September 2024

### Message from the Commodore:

Fellow club members,

We recently had a “near miss” when a departing boat and an arriving boat met unexpectedly in the harbor entrance. The departing captain announced his intention, however, the arriving captain did not have his VHF radio on.

When entering or exiting the harbor, it is important that every captain communicate their arrival or departure on VHF channel 16. A typical broadcast would be “This is the pleasure vessel (vessel name) leaving Overall Creek, Commodore Yacht Club, inbound traffic please advise” (credit Ernie Jones & Don Filson). Sounding your horn as you enter or exit is also important to alert smaller boat captains of your intention. Coast Guard regulations require vessels with a VHF radio to monitor channel 16.

We have had a couple of members interact with ramp members and visitors about issues they believed were not courteous or violated our rules. It’s always good to be helpful to new boaters, but if you believe it’s a major issue, please bring it to Belita in her role as Harbormaster and allow her to address the problem.

On a more upbeat note, our website has a new look and is now mobile device friendly. If you have an opportunity, take a look at [www.commodoreyachtclub.com](http://www.commodoreyachtclub.com).

Steve Hawkins
